

# Flutter app

The image shows a mobile app interface for a login screen. At the top, there is a blue header bar with the word "Login" in white. Below the header, there are two input fields: "Email" and "Password". The "Email" field is above the "Password" field. Below the "Password" field, there is a blue button labeled "Login". Below the "Login" button, there is a link labeled "Sign Up" in blue text. The background is a light gray. At the bottom, there is a white bar with three icons: a menu icon, a home icon, and a back icon.

The image shows a mobile app interface for a sign up screen. At the top, there is a blue header bar with a back arrow icon and the text "Sign Up". Below the header, there are three input fields: "Email", "Password", and "Confirm Password". The "Email" field is above the "Password" field, which is above the "Confirm Password" field. Below the "Confirm Password" field, there is a blue button labeled "Sign Up". The background is a light gray. At the bottom, there is a white bar with three icons: a menu icon, a home icon, and a back icon.

This are the user interfaces.

For Backend flask used which stored the email of the user .
